

CaSYPoT – Capacity Building for Strategic Youth Policy and Transnational Cooperation

The Survey

Zofia Makowska

The Regional Council in Kalmar County

Feedback from partners

- Too personal information, e.g. Name of school, postal code
- No option "other sex"
- Questions about gender and sexual orientation – too personal
- Parents as mother and father – not parent A and B
- Discuss to which time period should the questions relate: 6 months/ 1 year/ or...?

Feedback from partners

- Drug use related question with a list of drugs educates youth about drug existence and "invites" to use. Form of the question should be changed.
- Differences in school systems
- Differences in the systems of summer jobs
- Update to country specifics
 - E.g. Snuff only in Sweden, categories beer (no light beer) and then separate stronger alcohols (wine and stronger)
 - Born in relevant country/Europe/outside Europe
 - School and higher education systems

Group work

- Suggested changes regarding to country context
 - Obstacles foreseen to survey implementation
 - Aims for the survey
